- **The *OnMusic Explorations* courseware:**
  - *OnMusic Explorations* is customizable, web-based, digital courseware hosted in a Moodle-based learning management system.
  - The course contains web pages with interactive lessons, quizzes, exams, discussion forums, and written assignments.
  - Lesson pages also include a supplemental toolbar containing optional, interactive learning tools.

- Some course audio is provided via external weblinks to the free version of the third-party web-based music streaming service, Spotify®. The use of the Spotify® web player as it is used to play the *OnMusic Explorations* course audio on a Windows device is evaluated in this document under 'web'. The use of the Spotify® web player beyond the functionality required to login and play course audio through the links provided in the course was not evaluated.
  - Using the Spotify® web player is the recommended way to play course audio.
  - Default settings of the free version of the Spotify® web player were evaluated.
  - For best results, users should ensure they are logged into the Spotify® Web Player before starting a coursework session.
  - Information on how to access and use the Spotify® web player is included on the Preamble page of the course.
  - IMPORTANT: The Spotify® web player is subject to change at any time. The evaluations in this document represent conditions found on the date of testing.

## **Web Based Authoring Tool**

The Atto Text Editor is a web-based authoring tool embedded in written assignment and discussion forum pages for creating responses to the prompts. All documentation regarding authoring tools refers exclusively to the Atto editor when functioning in this capacity.

## **Software**

While the Spotify® web player is most used to play course audio, some users may prefer to download the third-party Spotify® desktop application to augment performance on their device. The use of the free version of the Spotify® desktop app as it is used to play the *OnMusic Explorations* course audio on a Windows device is evaluated in this document. A link to download Spotify® and instructions on how to use it are provided in the Preamble page of the course.

IMPORTANT: Content presentation on the Spotify® desktop app is subject to change at any time. The evaluations in this document represent conditions found on the date of testing.
